### 1. Laser pointer

Cats have a blast trying to catch the red dot! And it's low-impact for you. Do not shine directly in pet's eyes.

### 2. Da Bird® feather toy

Set on a swivel, the feather looks and sounds like real bird wings. Activates your cat's hunting instinct.

### 3. Swizzle Bird®

For cats who may be tempted to eat the string of the Da Bird®, the Swizzle Bird® has no exposed strings or metal pieces.

### 4. Kitten Mitten®

The mitten's long fingers have jingling, catnip-filled pom-pom fingertips. 100% cotton canvas gloves feature plastic-reinforced fingers.

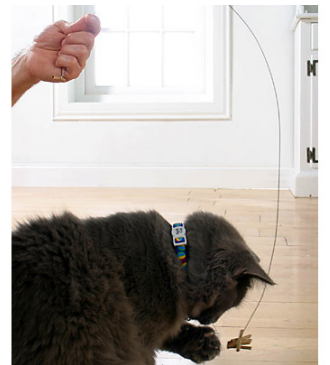

### 5. Quick Draw McPaw®

Quick Draw McPaw® is a peek-a-boo toy that cats love. 45" long flexible tube has a handle at one end and a feather at the other. Slide the handle to make the end feathers peek in and out.

### 6. Cat Dancer®

It's a piece of spring wire with tightly rolled paper strips at the end, and cats love it!

### 7. Play Paw®

Protective double-thick plush glove, soft inside and out. Play Paw® protects your hand and lower arm from sharp claws and teeth. The natural animal patterns give the mitt the prey-like look and feel that cats want to attack. Machine washable.

### 8. Remote Control Mouse

This radio-control mouse rights itself every time your cat bats it over. Steer the durable plastic mouse all four directions - even diagonally - using the cheese wedge controller. Mouse recharges in 45 seconds!
