### March is National Kidney Month

#### Help Keep your Cat's Kidneys Healthy

This month, during National Kidney Month, is a good time to remind cat families about the importance of healthy kidneys. Kidney disease is one of the leading causes of death for cats. What can you do to make sure your cat has healthy kidneys?

- 1. Feed your cat canned food.**  
Canned-food- only diets (and no dry food at all!) are the gold standard for cats. These foods have more moisture to help keep the kidneys flushed out and the body hydrated.
- 2. Encourage cats to drink more water.**  
Offer fresh water daily at multiple water stations throughout the house.
- 3. Get a screening blood and urine panel annually.**  
This is important for cats of all ages in order to catch kidney changes early. The earlier the diagnosis, the easier it is to treat and manage kidney disease with better results.

#### New Nurse Hotline

The Cat Practice has a new email "hotline" to answer your questions e about your kitty's health. Email [NurseHotline@thecatpracticepc.com](mailto:NurseHotline@thecatpracticepc.com) If your cat has symptoms of illness, it's still best to make an appointment with your veterinarian.

### For anyone who has lost a beloved cat

Losing a kitty -- or any beloved pet -- is such a difficult time for so many pet families. We wonder why they are here for such a short time. We wonder how life can ever be the same without them. We miss their soft steps and the smell of their fur. If you have ever lost a cat -- or know someone who has -- read this touching tribute, *In memory of Basil*, posted to The Cat Practice Memory Wall at <http://www.thecatpracticepc.com/memory/basil.htm>

Thank you to Carol Petersen – for posting – and for writing it.

#### Kitty Camp

Cats staying in our Kitty Camp enjoy frequent attention and plenty of play and exercise in our Kitty Playroom. Consider boarding your cat while you're away, have guests or are having work done at home. For information – or to register – go to [thecatpracticepc.com/boarding.html](http://thecatpracticepc.com/boarding.html) or call 248-540-3390.

## More from the West Coast: Cat Art Show

The Los Angeles Cat Art Show, held in January, included its own VIP night and attracted cat lovers from all over the West Coast. The 3,000 square foot gallery that housed the show featured everything from cat-themed paintings to hand-made quilts and photography to digital art. It also provided an opportunity for cat lovers to do what they like to do most – talk about their cats!

It's worth a visit to see some of the art work at [http://ihavecat.com/2014/01/26/cat-art-show-los-angeles-opening-night-review/?goback=%2Egde\\_89012\\_member\\_5833575855565086723#%21](http://ihavecat.com/2014/01/26/cat-art-show-los-angeles-opening-night-review/?goback=%2Egde_89012_member_5833575855565086723#%21)

To all you creative cat lovers in the "D" – maybe an idea that could catch on here?

## New Lost & Found Map Makes it Easier to Find Lost Pets

Michigan Partnership for Animal Welfare (MPAW) has created a new lost and found map on its website for lost pets. Pet families can go to <http://michiganpaw.org/lost-and-found-pet-map/> to locate animal shelters in their area that hold pets for state-mandated stray holding periods. The mandate requires shelters to hold strays without identification for a minimum of 4 days, and 7 days for animals with ID (tag, microchip or tattoo). The idea is to give concerned pet owners a place to start looking for their pet once they've gone missing.

## A Cat's Not Just a Cat!

### Breed Profile: American Curl

In 1981, a stray black kitten with unusual ears was found on a doorstep. The affectionate kitten quickly endeared herself to the family and was named Shulamith. All American Curlys trace their heritage back to her. Geneticists have confirmed that the ear-curling gene Shulamith carried is unique. A cat with even one copy of the gene will show the curled-ear trait.

American Curlys are curious, exuberant and loving companions who greet each day with joy as they look for new adventures. They are exceedingly people-oriented and are known to pat their caregivers to get attention and include them in their activities.

American Curlys come in longhair and shorthair with a myriad of colors. While the curled ears are the major feature of this special breed, other characteristics are its large walnut shaped eyes and medium-sized rectangular body.

## Cat Trivia

**True or false:** Most cats (not including those with extra toes) have four toes on their front feet and four toes on their back feet.

Be FIRST to email us with the RIGHT answer at [Tabitha@thecatpracticepc.com](mailto:Tabitha@thecatpracticepc.com) and win a free bag of organic catnip! See next month's issue for the answer!

**Last month's trivia answer:** True! A female cat is at much greater risk for breast cancer if she goes into heat or has a litter before she is spayed.

Congrats to Sue Kaperzinski who was first to reply with the correct answer and claim the free bag of catnip!

## Cat's Meow Tip: Medication Station Simplifies Treating Diabetic Cat

"Do you have a diabetic cat? Then you have syringes, lancets, cotton balls, glucometer tester, test strips and treats among the stuff needed for a twice-a-day routine. I suggest setting up a "medication station." This is a dedicated place that includes a compartmentalized tray for keeping everything organized and at hand. I have my medication station up in an upper kitchen cabinet, directly above the counter that Newton and I use twice a day for our routine."

- Contributed by Kevin Larsen and Newton of Royal Oak

Do you have a cat care tip that is just the Cat's Meow? Email [Tabitha@thecatpracticepc.com](mailto:Tabitha@thecatpracticepc.com). If we run it, you get a FREE bag of organic catnip. Limit to 75 words.

## The Cat Practice commitment to cats and their people:

- o Spot health conditions early to avoid more costly care later.
- o Treat the whole patient looking out for physical and emotional wellbeing.
- o Respect each cat as an individual with his/her own distinct personality & heredity.
- o Avoid surgery at all cost. (The exception: all cats should be spayed or neutered!)
- o Provide alternatives for care whenever possible.
- o Partner with cat families through knowledge sharing.
- o Make oral hygiene and preventive dental care a priority.
